An additional consideration is whether your prop may need the inner hub that protects your drive train replaced. This can add another \$40-60 to the repair cost, so it needs to be examined as well. Aluminum propellers are fairly inexpensive to purchase new, so you don't want to put too much money into them, unless they are in good overall ...

The Cost of Owning a Boat: Budgeting and Financial ...

Likewise, costs increase with boat and engine size. For example, cost to service and winterize a four-stroke outboard engine of 150 horsepower might be \$250, plus cleaning and winterizing the boat may be another \$250. Also keep in mind that using the boat in freshwater will keep maintenance and cleaning costs down considerably.

Costs of Boat Ownership: Boat Costs & Affordability

Lack of engine access on some boats can add significant cost to a repower project. I have estimated and overseen dozens of repower jobs—mostly on inboard powerboats over 30 feet, but also on I/O's, sailboats, and outboard boats. Replacing any boat's engine(s) is a project that should make financial sense.

Damaged Prop: Repair or Replace? | BoatTEST

Lack of engine access on some boats can add significant cost to a repower project. Volvo Penta Replacement Engines | Wholesale Marine

Hours at a reputable shop are \$60 to \$90. Parts maybe \$150 to \$200 for basic service below. So \$120 to \$270 labour plus \$150 to \$200 for parts is \$270 to \$470, plus tax. Basic service, to me, includes: (this will vary a bit for different motors)

How much does a basic service cost for an outboard motor ...

There's nothing worse than a boat with a dry hull. If you've experienced a marine engine failure, we'd like you to consider a JASPER remanufactured marine engine.From laid back cruising to wide open throttle, JASPER MARINE provides all the power you need and expect for your boating pleasure.

Marine Engines | Inboard and I/O Engines | Jasper Marine

Rebuilding your engine will cost around \$2,500. That difference of \$1,000 to \$2,000 will buy a lot of gas, so consider carefully. The same-size engine in a newer four-stroke or DFI two-stroke model will add at least a \$1,500 premium, so those 90 to 115 horsepower models could now run upward of \$6,000.

Rebuilding an Outboard Motor | Boating Magazine

A typical engine rebuild is between \$2,500 and \$4,000 in parts and labor costs. This type of engine repair might include simply replacing bearings and seals, and obviously taking the engine out and re-installing it. It could be much higher too.
