Dentistry for Children & Adolescents takes a sustainable approach to dentistry. We incorporate ecologically sustainable materials and procedures that reduce the impact of dentistry on the environment. We have digital x-rays. This eliminates our contribution of pollution (chemical fixers and lead foils) into our sewer systems.

The American Academy of Pediatric Dentistry recommends that you schedule your child's first dental exam by the time they are a year old or when their first tooth erupts. This commitment to early childhood dental care will make a difference in the way they view the dentist's office and ultimately, their oral health.

Children's Dentistry - Lovell, WY

A parent brings a young child in to the dentist, thinking everything is fine with the little one's teeth. Then the dentist has to deliver the bad news: The kid's teeth are riddled with cavities and will need multiple fillings or (in some extreme cases) root canals.
