Heuristics and Biases: The Psychology of Intuitive ...

Explanations include information-processing rules (i.e., mental shortcuts), called heuristics, that the brain uses to produce decisions or judgments. Biases have a variety of forms and appear as cognitive ("cold") bias, such as mental noise, or motivational ("hot") bias, such as when beliefs are distorted by wishful thinking. Both effects can be present at the same time.

List of cognitive biases - Wikipedia

One way to examine whether there are policy implications of the evidence on biases and heuristics is to examine why the presence of biases is important. The main article that looks at the implications of things like judgement biases is the Beshears et al article. You will have to read this yourself and flesh out your answer.
