## Software Test Specification

In my Software Testing career, I never heard people talking much about software testing documentation. The general opinion about testing documentation is that anyone who has free time can do the documentation like a Test case, Test plan, status report, Bug report, project proposal, etc.

## Software Testing Documentation Guide (Why It's Important)

IEEE 829-2008, also known as the 829 Standard for Software and System Test Documentation, was an IEEE standard that specified the form of a set of documents for use in eight defined stages of software testing and system testing, each stage potentially producing its own separate type of document. The standard specified the format of these documents, but did not stipulate whether they must all be produced, nor did it include any criteria regarding adequate content for these documents.

## Software test documentation - Wikipedia

MIL-STD-498 (Military-Standard-498) was a United States military standard whose purpose was to "establish uniform requirements for software development and documentation." It was released Nov. 8, 1994, and replaced DOD-STD-2167A, DOD-STD-7935A, and DOD-STD-1703. It was meant as an interim standard, to be in effect for about two years until a commercial standard was developed.
