1 Unit B: Plant Anatomy Lesson 3: Understanding Leaf Anatomy and Morphology Student Learning Objectives: Instruction in this lesson should result in students achieving the following objectives: 1. Describe the main parts of a leaf. 2. Describe some major types of leaves.

Unit A: Basic Principles of Plant Science

KURT SCHWENK, in Feeding, 2000. 1. Morphology vs Anatomy. Unlike botanists, who make a clear and formal distinction between plant morphology and plant anatomy (the former referring to whole-plant form and the organization of parts, the latter to the fine structure, or histology, of parts), zoologists are uncharacteristically vague in their usage of these terms.
